Role Of Nutrition In Beautiful Hair

Have you ever watched a teen-ager carefully comb and recomb his hair? Boys and girls alike, take great pains in making sure that every hair is in place. Adults, too, prize themselves in an attractive coiffure.

Primping and the use of cosmetics play a role in hair care, however, they will not bring shiny and healthy hair. The hair must be fed properly if it is to be beautiful. When the hair is not fed properly it becomes dull, dry and hard to manage.

Hair is basically part of the epidermis and is protein. Because hair is protein it needs all the nutrients the skin needs for good health.

One way to restore humility is to read the help-wanted ads. You'd be surprised how many positions there are which you are too ignorant, too unattractive, or too old to fill.

How can you be sure you are feeding it correctly? "Simple," says Miss Mary Todd, Extension Home Economics Agent. Make sure your daily diet includes four glasses of milk, two or more servings of meat, fish or poultry, four or more servings of dairy green or yellow vegetables, citrus or other vitamin-rich fruits and four or more servings of cereals, two or more servings of milk, two or more servings of meat, fish or poultry, four or more servings of dairy green or yellow vegetables, citrus or other vitamin-rich fruits and four or more servings of cereals.

Dr. and Mrs. Jack Geckler and three children of Oakridge, Tenn., enjoyed the long holiday vacation with their parents, Mr. and Mrs. William Geckler, and her parents, Mr. and Mrs. Ed Jensen in Pahoa, Hawaii. Geckler, second year student at University of Florida was also home and returned to school Jan. 3.

After a wedding trip to Washington, D. C., the couple will be at home in Pittsburgh, Penn., Apartment No. 204, Washington Plaza, Centre Avenue.

Our greatest glory is not in never falling, but in rising every time we fall.

—Confucius.

Dollar Value For Tax Money?

The tax bird is coming home to roost. A lot of attention is being focused on a situation which has long been condemned but seldom studied seriously.

The Palm Beach County Tax collector recently released "Tax Facts" to show where the tax money goes which is collected by his office and how it has increased since 1960.

Taxes levied by the six boards or districts in the South West area of the county for 1966 were 271% of what they were in 1960 and only slightly less than the 272.9% for the county as a whole. The increase then is 171% for the total tax load but the application of the tax to individual pieces of property is a different story and while primarily

the concern of individuals it is also worthy of study as community problem.

The six taxing units are: Board of Public Instruction, County Commission, Central and South Florida Food Control District, Southwest Hospital District, Florida Inland Navigation District.

Port of Palm Beach District. The total tax assessment of these units was \$13,918,520.91 in 1960 and \$38,042,972.59 in 1966. This increase may or may not be in proportion to the cost of doing business in private industry. The question is; are we getting dollar value for our tax money?

In order to make an objective study of what has happened one should consider each taxing unit individually. For example taxing units range from an increase of 350 per cent for the Board of Public Instruction and a 58 and one-third per cent decrease for the Port of Palm Beach. These percentage figures alone may not represent the degrees of efficiency with which the units are operating.

While taxes are necessary and desirable up to a point it is important to give consideration to the point of diminishing returns.

Contrary to what appears to be a common thought the answer is not in demanding that the State and Federal governments be asked to carry the tax burden.

How and by whom is the problem to be studied? In some communities there are tax payers associations but these are inclined to be dominated by hot headed radicals who apparently conceive of their responsibility as being to complain and find fault.

Last year a committee of the Palm Beach County Resources Development board made a start at studying the tax situation and brought about the reduction of some \$4,000,000.00 in the assessment by the Board of Public Instructions.

Because the Development Board is county wide and is composed of able business men we submit that they would be the logical organization to carry on a continuing tax study with the primary purpose of preventing waste of tax monies.

It's Big Business

Florida's fourth-biggest industry may be political campaigning. Gov.-elect Claude Kirk has just revealed that it cost him and his backers \$550,210 to win the \$27,500 a-year job in Tallahassee. That sounds like big money, but it was really only peanuts compared to the spending of his less successful opponents.

Miami Mayor Robert King High, who lost to Kirk in the general election, had spent \$338,627 as of early November. His final report isn't in yet, but it may be expected to run well over \$1 million. Former Sen. Scott Kelly, who was defeated by High in the first Democratic primary and later teamed with him in the second primary, spent \$474,626. And Gov. Haydon Burns, seeking to extend his two-year term into six years, topped them all with an outlay of \$1,429,064.

Altogether, the six candidates who hit the campaign trail early this year spent more than \$3.3 million.

That's big business, any way you look at it. But it isn't the kind of business Florida has been looking for. Recent legislative efforts have been directed toward cutting down on this kind of spending. Obviously, they haven't worked.

EXECUTIVE VICE PRESIDENT

Southern States Industrial Council

Economy Wanted — Not Promises

The public should be forgiven if it views President Johnson's promise to reduce federal spending by several billion dollars with considerable skepticism. After all, this isn't the first time American taxpayers have heard Mr. Johnson promise to cut back federal spending.

No doubt some citizens will recall the early period in Mr. Johnson's administration when he was insisting that the lights be turned off in the White House and government offices in order to curb expenses. Some light switches, were manipulated, but within months Mr. Johnson was proposing that billions be spent on Medicare, the War on Poverty and other costly Great Society operations.

Americans also will recall that Mr. Johnson appeared before Congress and submitted what he called a "barebones" budget. Yet this same budget was riddled by layers of fiscal blubber, with enormous sums being allocated to the appetite of American-brand socialism.

If the American people have to rely on presidential promises to solve their problems, they will have a long wait in the poorhouse. Mr. Johnson, as president of the United States, doesn't know what budget-cutting means.

Mr. Johnson stresses the demands of the Viet Nam war, and these demands are true. But Mr. Johnson does not insist that the national budget be put on a war footing, with non-essential spending eliminated. For example, the administration pushed through Rentiere in the last Congress. That is a plan whereby the federal government subsidizes rent payments for supposedly underprivileged citizens. An administration that seeks to spend money on Rentiere can hardly be described as an administration non-essentials. The meaning of the word "frugality."

Even if the Johnson administration shaves \$3 billion off the budget, it is unlikely that will answer the nation's need for governmental economizing. While the White House talks of clipping the budget by \$3 billion, other government spokesmen indicated that the budget will grow enormously in other directions.

Walter Heller, Mr. Johnson's former economic adviser, already has suggested that the deficit may range between \$10 billion and \$15 billion this year.

Effective combat of the twin dragons of inflation and recession requires budget-cutting on a massive order, not on a token scale. Government operations are riddled with non-essential spending. Every single operation, the federal government has more than 150 aid programs for the poor. It is bad business that the states should look to Washington for a solution to all their problems. It is equally bad that Washington should try to run state affairs by pumping money into state capitals. Surely, budgetary axmen could have a few words worth of free food from the United States. With this food available to feed in people, the Egyptian government has been in a position to wage war in the small Red Sea country of Yemen. More recently, Egypt and other revolutionary Arab countries have

been applying pressure against the more conservative Arab nations. Surely it is time for Mr. Johnson to cut back on the supply of free food to the aggressive Egyptians who are working hand-in-hand with the Soviets.

Federal urban renewal tax funds have absorbed tax funds in large quantities. It is time that these programs be closed down and that cities be required to undertake their own renewal programs with local funds or through the agency of private enterprise. Recently, David Rockefeller, a leading U. S. banker, pointed out that the rebuilding of cities is

a task for private enterprise. But the Johnson administration doesn't want to cut federal spending in this field. Yet if frugality is to prevail in America, the federal government will have to get out of fields in which it doesn't belong. Few token cuts are not the answer.

A real initiative in saving is not likely to come from the White House, simply promises and public relations gimmicks. The cost-cutting job will have to be done by Congress. Fortunately, the augmented conservatives in Congress should be able to make a start on the job.

Roberts Will Get Post

TALLAHASSEE (APN)—Former Representative Emory Roberts of Tallahassee apparently will have no further trouble in being named head of the Florida State Department.

Gov. Haydon Burns tried to spike this appointment by pushing forward Jackson County Sen. Robert Williams for this \$17,500 a year job.

The welfare board balked at Gov. Burns interference but held off naming Roberts who has been the job some months ago.

However, it appears that Gov. Claude Kirk, who now calls Palm Beach County "home away from the mansion," will be in agreement with Roberts' selection.

Neither the state nor the federal government of the gow will really consider upon the advice of Palm Beach County Sen. Skip Balfanz and Rep. Don Reed, both staunch Republicans.

Both these men serve as members of the House of Democrats Roberts and have the utmost respect for him.

—A lot is written about state agencies blowing the taxpayers money on questionable projects.

At least one state agency did it's bit during the Christmas season to reverse this opinion.

The Florida Park Service

office staff in Tallahassee decided to have an inconspicuous luncheon as its celebration. A memo was sent to employees to be sure and not forget to bring their own knife, fork and spoon.

Plates, cups and saucers were furnished by the agency.

—Individually, including Governor Claude Kirk has put his wrong foot forward with a powerful group of Florida's population.

These are the many society editors throughout the state who look forward with great glee to gubernatorial inaugurations.

Streams of copy are written about the gown which the governor's lady will wear to the ball and photographs get taken of the governor's wife so it can be run in color on the front page of the papers.

It is not known who is going to place her hand on his arm during the inaugural ball, but the work prior to the big event.

It was thought one of his tenographers or perhaps his mother would be his escort.

But also, his organization, not familiar with the ways of news gathering, concentrated on press representatives in the capital to make announcements of key appointments.

Uncle Dan From Doolie Says:

Dear Mister Editor:

Ed Doolie told the fellows at the country store Saturday night he aimed to start the year off right, and the proper way to do it was to get some facts in this country straightened out.

Zeke, a good old preacher come in about this time and, as a general rule, when the good folks give to a meeting, they give to the good folks. He said he didn't have anything but education, but they were plenty of people that were giving the floor or push a handcar or drive a nail or a truck. He said he had saw this piece in the papers

where we now got 30 million people in this country over 25 year old that ain't had one year in high school.

"What was all these people doing, ask Ed? He said they was the new 'lesure class' that has been created in the country. They wasn't the rich folks no more, he claimed, on account of the rich folks has to keep jumping to pay the taxes. 'What makes them pay the taxes?' it was the poor 'non-worker' with his guaranteed income that was draining the labor force of America.

"The good Parson butted in to agree with Ed, said he had knowed we were 16 billion on welfare in 1965 and it was going to 27 billion for the year just ended. They was a heap of good, healthy labor, allowed the Parson, running loose amongst the idle, giving them billions.

Bug Hookum said he didn't mean no disrespect to the Parson but he was of the opinion it would take more than prayers to make them Congressmen see the error of their ways, that it was going to have to be done at the ballot box.

Yours truly,
Uncle Dan

A Dark Christmas Town

BELLE GLADE, the friendly city, so be it! But what happened to the City of Christmas spirit as exemplified by home displays? True, the standard may be somewhat superficial for certainly good works were done by individuals and organizations during this Christmas season, yet it is Sun-day criticism to be a satisfactory program could be maintained.

Monday evening we set out to see the lighted and/or decorated homes and lawns of town city. Up and down streets we drove, from east to west and north to south and, we were disappointed. The Christmas spirit exemplified throughout the residential areas. Not true this year!

Even the Water Department which for years past has had a beautifully lighted "tree" and "snow" on the main street, the city jail and Police Department. Even the Ave. A approach to the city hall was some. Probably THE NIGHT BEFORE CHRISTMAS should be required reading of the powers that be to engender the spirit.

The street decorations on South Main St., on Ave. A and SW 58th St. were as useful as they were last year. Yet, a comparative few feet of additional lighting to form an entrance into the city from two major highways at the intersection of Avenue A and South Main St. would make a fitting introduction to the downtown area. A circus of lights at this junction

handled by similar strings of lights at the four sides would enhance the effect tremendously. The lighted tree across from the Chamber of Commerce was a welcome addition to the scene this year.

Probably the Chamber of Commerce could take the responsibility which lies well within its scope of operation to seek cooperation from residents to maintain their lighted displays or decorations for a definite period of time at definite hours. Often busy householders find it inopportune to decorate in time for the winter holidays, yet their contribution is overlooked as far as publicity is concerned for the viewing public.

SUNDAY'S SERMON
DROP-OUTS

There is great concern in our country about the increasing number of high school "drop-outs" and how to deal with them into a useful pattern of life.

Yet many young people who do not drop out of school, are doing little more than going through the necessary motions. We need to give more importance upon the things that go on in preparation and the realization of a fruitful life.

Youth should be shown how to live in the fullest way morally and spiritually. Training is essential to the proper conduct of life. Too many young adults are not prepared for the challenges and the temptations of life and do not have the faith and vision to meet the challenges of modern times as it was needed in the early hours of Christianity.

A Disgraced Parent

A For-Fair Play

This program could also include a street by street tour by a committee just prior to Christmas even which in turn would be publicized through the news media giving the name of the resident and street location of decorated home or lawn. With the period of Christmas week and set hours of from 7 to 10 P. M. or later for displays to be a satisfactory program could be maintained.

The municipal marina and club house as well as the community center could well be considered in the 1967 overall program of the city which, we trust AT LEAST maintain the program so appreciated in years past.

Name Withheld On Request

Free Housing?

Attention — To the Public of the Glades: I have had so many people ask me why the Glades Property Management Association is against the proposed Public Housing Authority's project in Pahokee.

Well, I would like for all free enterprise people to read this carefully. The Glades Property Management Association is not against any housing project as long as it is legitimate competition to free enterprise. But God knows and all thinking people know that nothing is right about a free enterprise, organized by the city which is supported by the taxpayer's money, coming in and competing with the tax-payer in such a way to take rentals from him. This is what this proposed project will do-kill the taxpayer.

What kind of politicians do we have that will approve a venture of this kind? Who will take the hard earned taxpayer's money out of the appropriation budget and spend it in a way to harm the taxpayer, who supports the politician who supports the politician and makes possible the appropriation. If this happens, the politician can be sure that the people will work, spend money and vote to remove him from his job. Would anyone be so stupid to put himself out of business?

If this Housing project goes through \$4,000,000. worth of tax free houses, it will never be forgotten by members of the Glades Property Management Association. And please, politicians, do not underestimate the size and strength of the association. It is growing all over Palm Beach County.

I believe the Democrats will tell you it is not the minority and their money that elects, it is the votes of the majority that puts a man in office.

R. O. Crosby

Warm Feet
Discrimination, a word almost taboo in the English lexicon, has again reared its ugly head. Migrant children in the newest Palm Beach County school on the coast may have no fear of cold toes on bare floors while Glades children must of necessity wear shoes to achieve the same comfort. What no wall-to-wall floor covering in our schools? For shame!

VIDA LLENA DE FRUTOS:

En la tunaja de Florence Nightingale solo tiene sus iniciales: F. N. Una vida así no necesita monumentos. Sus palabras de fe nos siguen hablando en el día de hoy. "Vive la vida mientras la tiene. Ella es un don espléndido. No hay nada pequeño en ella. Las grandes cosas crecen por la ley de Dios. Nunca de las mas pequeñas..." Haz tus pensamientos, tus palabras, tus actos y tu trabajo hacia el mismo fin, y ese fin no tu yo, tu egoísmo, sino DIOS.

Muchos viven sin victoria, sin propósitos definidos echando a perder el don de la vida y por su egoísmo perdiendo a otras vidas. Que hermoso es saber que Dios por medio de Jesucristo su Hijo nos perdona todo pecado.

Porque perder la oportunidad de vivir la vida inspirada en la fuente inagotable de amor. Ahora mismo ora a tu Padre Celestial. El tiene victorias para tus sufrimientos, para tus cuentas aun no arregladas.

Levanta tu vista al cielo, no mires mas a ti mismo que te hundiras. Hay posibilidades incalculables en cada uno de nosotros si solo creemos de toda corazón en las promesas del Señor.

Beyond These Walls Campaign Scheduled By Church Of God

Officers and committee for the participation of the Church of God 301 S. E. Avenue E. Belle Glade have been appointed for their Beyond These Walls evangelism campaign to begin Jan. 8th and to continue for 4 weeks ending on the last Sunday in January, Rev. Madison W. Sindle announced today.

The Reverend Sindle states that the local congregation is joining with the many Churches of God across the nation in this evangelistic program designed to attract the unchurched families in the community. "While church membership in our nation is at the highest point in history, regular church attendance is proportionately low," Reverend Sindle stated.

Observance of Beyond These Walls by the local congregation will be marked by special services each week. Special emphasis will be given to community canvass and personal contact. Mankind Today In Need Of Help On Many Fronts

LAKE WORTH — Jehovah's witnesses concluded their three-day convention in Lake Worth, Florida with an attendance of 1600.

Mr. B. Griffin, District Director of the Southeast United States spoke of how Mankind today is in need of help on many fronts. "One of the most pressing problems at the moment seems to be the war in Viet Nam," he said. In other cases the strife is even closer to home. It is in the home. There is an urgent need to restore family relations. Life has become miserable, and family ties are at the breaking point, or they may already have been broken. President Johnson recently stated the "family unit has collapsed among an alarming number of Americans." (New York Times July 30, 1965) Some feel that the greatest need is employment. Finding dependable employment looms as a big factor in their lives. Others are faced with yet a different situation. Their faith is failing. They may have other problems too, but it is understandable that they might consider the solving of this problem to be their greatest need.

"Can man cope with these problems? Can he satisfy mankind's need for a means to end war, create amiable relations between the races, solve family problems, provide satisfying employment for everyone, restore perfect health to all and remedy mankind's many other problems? What does the evidence show?"

"Mankind's greatest need is an entirely new system. Trying to put a new patch on an old garment does not result in anything new — only a continuation of the old. The need is for a provision to rid mankind of inherited sin and provide a new system of things to satisfy all mankind's needs."

Are We Making Real Progress?

By Lewis Llewellyn

We are living in an age of change and an age of scientific progress. For years men have dreamed of the possibility of journeying to the moon — an idle exercise of the imagination. Now we are working seriously to accomplish this feat.

Already we have built vehicles capable of carrying men outside the confines of earth's atmosphere and then bringing them back.

In scientific areas, our progress is indeed astounding. But in some other areas the changes are not so favorable. NOTABLY UNSUCCESSFUL.

While we have been notably successful in our conquest of space, we have been notably unsuccessful in our fight against crime, here on our own planet.

While we are striving to make it safe for man to land and live on the moon, shouldn't we consider it important to make it safe for man to live on earth?

Our nation's capital city is a prime example of our failure to put first things first. In Washington, D. C., the head of the Government Printing Office recently put out a warning to the people who

Altar Society Will Meet Jan. 10

St. Philip's Altar Society will hold its first meeting of the new year on Jan. 10 at the parish hall of the church 8 p. m. Mrs. R. Horard, President will preside.

Sermon Topic

Rev. F. H. Davis, interim pastor of the Community Methodist Church in Lake Harbor will speak on the sermon topic, "The Force of Example" at the morning service, at 11 A. M.

PRAYER: Our Father, create in us clean hearts and dedicated wills that we may be used by Thee for wisdom and strength. We humbly ask in the name of our Lord and Master, Amen.

Long ago, the Bible told us, "Righteousness exalteth a nation, but sin is a reproach to any people."

If our nation continues to turn away from God, we can expect to see a further deterioration in the morals of our people and a continued increase in the crime rate.

Is this what we, as a nation, want? Or will we turn back to God, while there is still time?

Evangelist Hargis To Speak In West Palm Beach, Jan. 12

Evangelist Billy James Hargis of Tulsa, Oklahoma, founder of the Christian Crusade, largest anti-communist organization in the U. S., will appear in Palm Beach on Thursday, January 12 in the George Washington Hotel, N. Flagger Drive at 7:30 p. m. He will also be in Ft. Pierce Hotel at 7:30.

Christian Crusade is a Christian anti-communist ministry, with headquarters located in Tulsa, Oklahoma, now in its nineteenth year of operation.

Hargis has long been a foe of liberalism and modernism in religion, and has spoken out against the policies of the National Council of Churches, as representing themselves as the spokesmen of all the members of denominations holding membership in the N. C. C.

His daily network broadcast, CHRISTIAN CRUSADE, is carried by over 350 radio stations. He publishes two national publications: CHRISTIAN CRUSADE and WEEKLY CRUSADE. Probably the most famous and sought-after speaker among the anti-communist organizations in the United States, he makes over 250 personal appearances each year throughout the nation. Feature articles on his anti-communist activities have appeared in Newsweek, Life, Time, Look, Saturday Evening Post and on nationally televised programs such as "CBS

Huntley Presents" and "CBS Reports."

Dr. Hargis has recently returned from his fifth tour of the Holy Land, where he spoke at the Garden Tomb and at Gordon's Calvary, considered by Protestants to be the place of the Crucifixion.

Assisting in the Rally will be the inspirational gospel singers, The Plainmen Quartet and Evangelist Charles Secret of the Christian Crusade staff. The Plainmen record on the Mercury label and appear regularly in concerts and revivals all over America.

The meeting is open to the public and admission is free.

New Bus Service To Flamingo

In anticipation of a busser winter tourist season surpassing steadily mounting records of recent years, the Everglades Park Company has introduced daily bus service between Miami Beach and its Flamingo visitor facilities deep within Everglades National Park.

An air-conditioned bus now departs at 10 a. m. every day from the newly-opened Park Company information and reservation office located at 2208 Collins Avenue, Miami Beach, and arrives 1:00 p. m. at Flamingo Lodge on Florida Bay. The trip into the Park includes a 30-45 minute stop near the entrance at the Royal Palm Station, where passengers may view wildlife of the region from the popular Anhinga Trail. A bus leaves Flamingo each afternoon at 3:00 p. m., reaching Miami Beach at 5:15 p. m.

Bus fare to Flamingo, which also covers admission to the Federal wildlife sanctuary, is \$4 one way. A round-trip ticket costs \$7. The one-way charge from Flamingo to Miami Beach is \$3.50.

The Anhinga Trail provides one of the finest and most dependable wildlife shows in the Park. From the safety of an elevated boardwalk, visitors can see fish, alligators, water snakes and numerous birds, such as the purple gallinule and anhinga—all at close range.
